
Environmental Policy Statement

Optimal and its subsidiaries understand that certain parts of their business activity may have an impact on the environment and therefore are committed to developing processes which will help in minimising the impact of its activities on the environment.

Optimal is committed to:-

- Comply with the terms of all national and international environmental legislation for the areas in which the business operates.
- Minimise waste by evaluating operations and ensuring they are as efficient as possible.
- Incorporate energy efficiency measures and promote efficient energy use in all areas of business activity.
- Actively promote recycling across the business locations.
- Provide appropriate training to all our employees and contractors, to ensure they are competent to do their work without causing or sustaining environmental harm.
- Respond to environmental concerns raised by employees, contractors, customers and general public.
- Develop, implement, maintain, manage and review our environmental policy and statement to ensure continuous improvement and effectiveness in meeting our business needs.

SCOPE

This policy is applicable to all Optimal entities.

Optimal will monitor and continually improve, measure and assess our Environmental performance as defined in the Quality Plan OAMS-GEN-PLN-001. The ultimate responsibility within the company rests with the Board of Directors who are accountable for all matters pertaining to commitments laid out in this Environmental Policy.
